

Pork Loin Dinner by Food Storage Moms

3 pounds pre-seasoned pork loin (not frozen)
1 onion, quartered
6 raw potatoes cut in pieces
8 carrots, sliced
1 cup water

Place the onions, potatoes and carrots in the pressure cooker. Place the pork loin on top of the veggies. Add one cup water. Place the lid of the pressure cooker on and turn the dials and set the timer as indicated in your pressure cooker book based on what is being cooked. I cooked this meal on HIGH for 60 minutes.
